

LEGAL BASIS

1. Categories

- a) Two categories are defined in which nominations can be submitted for the RENMAD Storage Italia 2025 Awards (I Edition)
- b) The awards will recognize the value of the nominees' actions during the course of 2024

2. Nomination Process

- a) Candidates may nominate themselves and others they consider deserving of the award in each category
- b) Nominations will be made by filling out a nomination form available on the website
- c) Specific information will be requested from each project and nominee as to why the nominee deserves to qualify:
 - i. Organization responsible for the nominated project
 - ii. A maximum of 100 words explanation of the nominee project and its relevance to the category for which it is being nominated

3. Beneficiaries

- a) Candidates may be individuals or legal entities that have stood out for their work in the field of energy storage
- b) Candidates must have carried out their activities in Italy and/or have their headquarters inside the national territory

4. Format and Voting System

- a) The RENMAD Storage Italia 2025 Awards follows a popular format, where nominations and the selection of both finalists and winners will be determined through individual voting
- b) Only one vote per person will be counted, and the voter will receive an email confirming his or her vote

6. Award Recipient Selection Process

- a) The same company or organization may not be the recipient of more than one award. In the case that the nominated organization wins more than one category, it will be awarded only the category in which it receives the most votes
